Surveillance cameras are posted throughout campus buildings. Public Safety Officers and/or contract security monitor the campus buildings. Duties include dispatching Security and Facilities staff, monitoring intrusion, duress alarms and surveillance cameras, along with activating the emergency notification system. Public Safety Officers, while enforcing Sullivan University's regulations, are authorized to ask any person for identification to determine whether individuals have lawful business at the University and can initiate a felony arrest, like any citizen of the Commonwealth when a felony has occurred. Criminal incidents that occur on campus are referred to the local law enforcement. The Sullivan University Community is encouraged to promptly and accurately report all crimes to Public Safety and/or local law enforcement. The Public Safety Department has an excellent working relationship with metro law enforcement agencies and assists with investigative efforts and exchange of information on criminal matters, as deemed necessary.

## **Training & Development**

The Department of Public Safety require campus security officers to participate in ongoing classroom and on-line training in interpersonal skills, security awareness, crisis intervention, personal and property protection and emergency response procedures, which include incidents requiring evacuation. Certification in standard first aid, CPR and the use of automated external defibrillators (AED) is also required. Security staff and supervisors undergo additional training that includes certification in handcuffs, expandable baton, and OC spray.

## **Building Access and Security Policy**

During regular business hours, Sullivan University is open to the college community, guests and others with legitimate college business. The hours of operation for the campus vary based on the building location. During non-business hours, access into campus facilities is strictly prohibited. Requests for extended building hours are subject to approval by the Administration. Each faculty, staff and student is issued a Sullivan University photo identification card. This card may be used for access or security identification purposes and is expected to be in their possession at all times while on campus. Employees and students who have lost their ID may check with the Department of Public Safety or purchase a replacement in the Administrative Office.

Access is monitored by security personnel and residence hall staff and regulated by keycard. Policies and procedures pertaining to guest privileges are published in the Housing Manual. Residents are cautioned against permitting strangers access into student residential facilities and are encouraged to maintain community watch for suspicious activity or behavior.

## **Life Safety, Security and Emergency Notification System**

Campus buildings are equipped with sophisticated life safety equipment; including, fire and intrusion alarms and notification system. The Dean Alert emergency notification system provides a notification system that delivers email, cell phone, and/or text messages pertaining to information and responses critical to incidents occurring on campus. To receive important notifications, students, faculty and staff must register through [deanalert.com](http://deanalert.com).

## **Emergency Preparedness**

Recognizing the importance of emergency preparedness, Sullivan University has created a written document, the Emergency Event and Crisis Plan, outlining the University's response and recovery to any emergency or crisis. Training on the plan is conducted on an annual basis and includes field exercises, along with tests of the emergency notification system.

## Reporting of Emergencies

We ask for students, faculty, and staff cooperation with the reporting of any hazardous or emergency situation involving a threat to the health and safety of our University Community or loss of University property. Hazards, such as missing fire extinguishers, obstructed emergency exits, multiple or frayed electrical extension cords, candles, open flame devices or improperly contained hazardous materials must immediately be reported to the Department of Public Safety. Emergency situations involving imminent threat to health and safety, which may be medical, criminal or involve a fire, should be called into the local authorities by dialing 911, followed by a call to the Department of Public Safety. Campus Security has the responsibility of responding and assisting the First Responders to mitigate, investigate and document any situation that may cause a significant emergency or dangerous situation.

## Emergency Evacuation Exercises & Procedures

Announced and unannounced emergency evacuation and/or preparedness exercises are conducted throughout the year in University facilities and are recorded for assessment purposes. We strongly urge individuals to familiarize yourself with emergency exits, stairwells and locations of pull stations in each building and actively participate in all evacuations. Emergency response procedures and evacuation maps are posted in every classroom identifying the evacuation routes. Individuals who have difficulty navigating stairs and require assistance during an evacuation are advised to register their name with the Department of Public Safety. The Department of Public Safety distributes an email to faculty and staff annually requesting that the location of emergency exits and evacuation procedures be reviewed with students.

### In the event of a fire or smoke condition,

activate the building fire alarm system by pulling down the handle on the fire alarm pull station. The pull station provides immediate notification to the Louisville Fire Department, Campus Security and the occupants. Do not attempt to extinguish a fire unless it is impeding your exit. If you hear the alarm, always assume a fire exists and leave the building immediately.

### In the case of an emergency evacuation:

- Cease all activity and immediately proceed to the nearest exit.
- Check the surface of the door and/or doorknob for heat and the bottom of the door for signs of smoke before opening it and exiting a room.
- Slowly open door, keeping the door between you and the corridor.
- Make a visual observation of the corridor for fire or smoke and proceed to the nearest exit.
- Ensure all doors are closed behind you.
- Evacuate the building via the safest and nearest available stairway exit.
- If you are an individual requiring assistance, notify security via the classroom phone by dialing 8888 or call 911 and advise the city or first responders of your location.
- **Do not use elevators**
- Evacuate at least 300 feet away from the building and await direction from the University officials.

**In the case of a blocked stairway or exit:**

- Using a classroom or office phone, notify building security that all exits or stairways are blocked and advise them of your location.
- Go to the nearest room and close the door.
- Place cloth under the door to prevent smoke from entering the room.
- Hang a cloth or other object out of the window to signal that the room is occupied.
- Stay as close to the floor as possible, when smoke enters a room.
- Break top window first to expel smoke, then break bottom window to admit fresh air.

For more detailed procedures regarding emergency evacuations and procedures, visit the Department of Public Safety Office.

**Immediate Emergency Notification Policy & Procedures**

Upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of the University Community, Sullivan University authorities will, without delay, distribute an alert of notification to the Campus Community, unless issuing an alert will, in the judgment of first responders, compromise the efforts to assist victims, or contain, respond to or mitigate the emergency.

The following represents the emergency notification procedure:

- Confirmation of an incident that threatens the health or safety of the University community is conducted by the Department of Public Safety and/or Facilities Department.
- Activation of the emergency notification systems is authorized by the Associate Dean of Students, Dean of Students, Chief Academic Officer and/or the Executive Director
- A message alerting the College community of the threat is crafted by authorities in the Public Safety Office, Student Services, and/or Administration.
- Activation of the emergency notification system is initiated by the Associate Dean of Students, Dean of Students, Chief Academic Officer, or the Executive Director.
- Notification to neighboring institutions, local businesses &/ or the media will be conducted by the Corporate Communications Department or designated staff member.

Immediate notification of a threat to the health and /or safety of College members may be distributed to either a segment of the population or the entire campus community, depending on the scope of the threat. The methods of notification may include activation of the Dean Alert, email, or postings within campus buildings and/or the University Website.

Students, faculty, and staff can register for the emergency notification system at [deanalert.com](http://deanalert.com).

## **Missing Student Policy and Protocol**

In accordance with the Higher Education Opportunity Authority, it is the policy of Sullivan University to provide all students residing in on-campus housing the option of identifying an individual to be contacted by the University in the event that the student is determined to be missing for a period of more than 24 hours by providing an opportunity to register confidential contact information. This information will be accessible only to authorized campus officials and law enforcement as appropriate. Students will have an opportunity to register contact information prior to moving into University Housing and may update contact info at any time in the Housing and Residence Life Office.

Students under the age of 18, who are not emancipated, should be advised that the University is required to notify the student's custodial parent or legal guardian within 24 hours after the Public Safety Department or local law enforcement agency determines that the student has been missing for more than 24 hours, in addition to notifying any additional contact person designated by the student. A student is determined to be missing when the Public Safety Department or other law enforcement agency determines that the student has been missing more than 24 hours, without any known reason, that the report is credible, and that circumstances warrant declaring the person missing.

If a member of the University community has reason to believe that a student resides in on-campus housing is missing, or receives a report of a missing student, he or she shall immediately notify the Public Safety Department. Upon receipt of a notification of a missing student, Public Safety shall initiate an investigation to determine whether the student is missing. Public Safety shall notify all necessary law enforcement agencies to assist in the location of the missing students.

If, after investigation, Public Safety determines that the student has been missing for more than 24 hours, the University shall notify the student's emergency contact no later than 24 hours after the student is determined to be missing. If the missing student is under the age of 18, and not emancipated, the University shall additionally notify the student's parent or legal guardian no later than 24 hours after the student is determined to be missing. Upon determination that a student has been missing for more than 24 hours, Public Safety will notify Sullivan University Executive Administrators.

Nothing in this policy is intended to preclude the University from determining that a student is missing before the student has been missing for a full 24 hours or initiating notification procedures as soon as it determines that the student is missing.

Questions pertaining to this policy can be directed to the Public Safety Office.

## **Alcohol & Drug Policy**

Sullivan University complies with the Drug Free Workplace Act of 1988 and the Drug Free Schools and Communities Act of 1989 which recognizes that all employees, faculty and students have the right to a workplace and educational environment that is drug free. An illegal drug includes any drug which is not legally obtainable in the United States, or which is legally obtainable, but is being used in a manner different from that prescribed by a doctor of medicine or intended by the manufacturer. Over the-counter or prescription medication, which is prescribed by a doctor and is being used for its intended purpose, is not considered an illegal drug. Students, irrespective of age, are not permitted to possess or consume alcohol on campus or at college-sponsored events on or off campus. Faculty, administration, and staff are prohibited from serving or allowing students to consume alcoholic beverages on college premises or at events, meetings, or informal gatherings sponsored by the College.

To the extent that students are present at a College-sponsored event where alcohol is being served, event organizers are required to take measures to ensure that underage students do not consume alcohol. The Vice President of Student Services can make exceptions to this policy as appropriate. ### **Sexual Offense Policy**

Sullivan University seeks a safe and healthy environment for community members. The University will not tolerate any verbal or physical action by any student, faculty or staff member which harasses, disrupts or interferes with another's education or which creates an intimidating, offensive or hostile environment. While all forms of harassment are prohibited, it is the University's policy to emphasize that sexual harassment is specifically prohibited.

Sullivan University has developed the following policy on sexual misconduct/sexual violence and harassment to set forth definitions to reaffirm Sullivan's commitment to providing resources and processes for prevention, education, support, reporting, adjudication, protection from retaliation and to identify a range of penalties. The University will also provide a collection of information about incidents as a clear process for dissemination of sexual assault statistics for the University community.

For the purposes of this policy, sexual misconduct is defined as non-consensual physical contact of a sexual nature. It includes acts using force, threat, intimidation, or advantage gained by the offended individual's mental or physical incapacity or impairment of which the offending student was aware or should have been aware. The use of any drug, including alcohol, judged to be related to an offense will not be considered a mitigation of circumstances, but rather an aggravating one. Sexual misconduct is strictly prohibited.

Such misconduct includes but is not limited to: sexual flirtations, touching, advances or propositions, verbal abuse of a sexual nature, graphic or suggestive comments about an individual's dress or body, sexually degrading words to describe an individual and the display of sexually suggestive objects or pictures including nude or sexually suggestive photographs. Sexual harassment whether it be face-to-face or online is strictly prohibited.

Incidents reported to the appropriate department will be addressed promptly and confidentially in accordance with the University's disciplinary procedures. A victim's decision to file charges against a member of the University community is one that may be facilitated by an advisor or designated advocate. This individual would be appointed or selected by the Vice President of Student Services.

In accordance with reporting procedures, Sullivan University will inform members of the community when an incident has been reported when, in the judgment of the administration, notification is appropriate and necessary.

Once a charge of inappropriate behavior is made, the University will utilize a fact finding procedure to adjudicate the charge internally. Both the accuser and the accused will be advised of the final outcome and of any sanction(s) that are to be imposed. Both parties will be advised not to disclose this information to the public.

Sanctions and penalties that may be imposed include but are not limited to: probation, suspension, sanction, and expulsion from Sullivan University and any of its facilities or controlled properties. Other penalties may include file entry, transcript entry and parental notification. Information may be divulged to the parents of financially dependent students as defined by the I.R.S. without the student's consent in accordance with [34 C.F.R. 99.31 (a) (8)]. In addition, an individual charged may be subject to civil litigation, and/or prosecution by authorities in accordance with applicable State Criminal Statutes.

The use of these policies for false or malicious purposes is strictly prohibited. Any member of the Sullivan community, who exercises bad faith and brings a false, malicious charge in accordance with the above clause will be subject to disciplinary action.

If assaulted, victims should:

The cooperation and involvement of faculty, staff and students is absolutely necessary to maintain an effective security program. To minimize the chances of becoming a victim of a random theft, the Department of Public Safety urges you to be mindful of your surroundings and assume responsibility for the safeguarding of personal property. Items of value, such as laptops, equipment, cell phones, wallets and book bags, should never be left unattended. If you left an item unattended and are victim of theft, check with the Public Safety Office located in Student Services to see if the item has been returned.

A criminal incident that occurs off campus should be reported directly to local law enforcement by dialing 911. Notification regarding student off campus criminal behavior may be reported by the local law enforcement to the Department of Student Services, as a courtesy, and could result in judicial proceedings. There is not, however, an official local law enforcement policy regarding mandatory notification to higher educational institutions.

Gardiner Point Residence Hall is equipped with the following fire safety systems:

- Sprinkler System
- Smoke/Heat Detection
- Pull Stations
- Fire Extinguishing Devices
- Mounted Evacuation Placards

### **Fire Safety Policies Pertaining to On-Campus Residential Facilities**

The following policies pertaining to room alterations, decorations, appliances, etc. are designed to ensure a safe community living environment in Sullivan University on-campus residential facilities.

#### **Appliances in Student Rooms**

Appliances that require an open flame, propane, gasoline, or hot grease such as deep fryers are not allowed to be used in or around any of the residence halls. List of unauthorized appliances: toaster, rice cookers, toaster oven, crock pots, counter or tabletop grills, hamburger cookers, hot plates, electric woks, electric skillets, break cookers, coffee/drink warmers, space heaters, frying skillets, or anything else that is deemed inappropriate by Director of Housing or Resident Directors.

Refrigerators operating on no more than 1.6 amps and no more than 5.0 cubic feet may be used in student rooms. Units should be placed on a stand or cart unless they have feet and back-mounted heat exchangers. Units may not be placed in closets. Units must be plugged into an approved power strip or directly into the electrical outlet.

Resident Directors reserve the right to require students to remove an appliance. Student rooms are checked for appliance policy violations periodically.

## **Burning and Open Flames**

Burning candles, incense (including potpourri pots), or creating an open flame in student rooms is prohibited. Candles with burned OR unburned wicks and incense are not allowed in student rooms.

## **Departmental Notification of Housing Assignments for Students with Disabilities**

The Housing and Residence Life office will compile a list at the start of each quarter of students identifying disabilities or medical conditions. This list will be maintained and distributed by the Director of Housing and Residence Life. The list will provide the student's name, housing assignment, and description of disability/ accommodations.

The following offices will receive a copy of the aforementioned list: Department of Public Safety, Vice President of Student Services, and the Housing and Residence Life Staff. The Department of Public Safety and Housing and Residence Life will be responsible for referring to the list if an emergency in a specific building occurs, in particular medical or fire emergencies requiring personnel to be notified.

## **Electrical Fixtures**

Students may not remove or alter electrical fixtures or hardware in student rooms or common areas in the residence halls.

## **Fire**

Any student who discovers a fire, no matter how insignificant he/she thinks it is, should sound the alarm by pulling the nearest pull station and notify a resident assistant or the resident director immediately. The building must be evacuated before attempting to contain the fire. Remember, most injuries occur from smoke, not flames.

## **Fire Alarms and Hall Evacuation**

Students must leave the building and go to their designated locations when a fire alarm sounds. Staff may enter rooms to do an evacuation room check if there is reason to believe that anyone could not or did not evacuate. Fire evacuation routes are posted on the back of student room doors. Tampering with fire and safety equipment (i.e., alarms, doors, pull stations, extinguishers, and security cameras) is prohibited. Students who violate this policy will be subject to termination of the Housing contract.

## **Fireworks**

Fireworks and other explosives are not permitted in the residence halls or anywhere on university property.

## **Flammable Decorations and Light Fixtures**

Students may not hang items from ceilings. Also, the use of acetate, cellophane, tissue paper, or other combustible materials over or in light fixtures is forbidden by fire regulations.

### **Hazardous Materials**

Materials that are hazardous to the health and safety of students are not permitted in residence halls. This includes but is not limited to chemicals, gasoline, and kerosene. Containers that have been used for storing gasoline are not permitted in the residence halls.

### **Power Strips and Extension Cords**

Multiple-outlet connections are prohibited unless they are a "temporary" power strip (or box) with a built-in circuit breaker, carry an Underwriter's Laboratory (UL) approval, and have a maximum load of 15 amps. Power strips with surge suppressors do not meet this standard unless they have a built-in circuit breaker. Power strips should not be used in a built-in circuit breaker. Power strips should not be used in a series (one power strip plugged into another). Extension cords are allowed provided they are UL approved, in good condition, and plugged directly into a power strip equipped with built-in circuit breaker. Extension cords should not be used in a series (one cord plugged into another).

### **Smoking**

The University is a smoke-free campus. Smoking is prohibited in all buildings and outdoor areas (including the residence hall) except designated locations. Students who violate this policy by smoking in the residence hall or non-designated areas will be subject to judicial process.

### **Evacuation Drill Procedures for On-Campus Residential Housing**

In accordance with state and federal laws, evacuation drills are conducted throughout the year. All residents and guests occupying the building at the time of the drill are required to participate in the evacuation. Floor plans indicating the evacuation routes to the internal stairwell(s) and exterior fire escape are posted on each floor. Residents are advised to become familiar with these exits, location of the fire alarm pull stations designed to activate the building alarm system.

### **Fire Evacuation Procedures for On-Campus Residential Housing**

All student rooms and stairwells are provided with smoke detectors. Fire alarm pull stations are located throughout the buildings. The greatest threat in a fire is smoke; therefore, it is important that residents know the following guidelines to respond to a fire in the building:

- Activate the building alarm system by pulling the handle down on the fire alarm pull station. Activating the system will notify Public Safety, and the Fire Department, and residents of the emergency.
- Check the surface of the door and/or doorknob for heat and the bottom of the door for signs of smoke before opening it and exiting a room.
- Slowly open door, keeping the door between you and the corridor.
- Make a visual observation of the corridor for fire or smoke and proceed to the nearest exit.
- Do not attempt to extinguish a fire unless it is impeding your exit.
- Evacuate the building immediately through the nearest stairwell door.
- Do not use the elevators.
- Follow exit signs out of the building.
- Stand at least 300 feet away from the building and await direction from the Fire Department personnel.

In the case of a blocked stairways or exit:

- Go to the nearest room and close the door.
- Place cloth under the door to prevent smoke from entering the room.
- Hang a cloth or other object out of the window to signal that the room is occupied.
- Stay as close to the floor as possible, if smoke enters a room.
- Break top window first to expel smoke, then break the bottom window to admit fresh air.

Reviews of the evacuation drills are conducted in all buildings for assessment and training purposes. Disciplinary action will be taken and fines will be implemented for students who fail to cooperate with staff or emergency responders assisting in the course of an alarm and/or evacuating the building. Fire equipment misuse or tampering is a felony. Any resident found guilty of tampering with fire equipment, including activating a false alarm, will be subject to severe disciplinary and criminal action.

### **Family Educational Rights and Privacy Act (FERPA)**

The Family Educational Rights and Privacy Act of 1974, as amended, is a federal law which states: (a) that a written institutional policy must be established and (b) that a statement of adopted procedures covering the privacy rights of students be made available. The law provides that the institution will maintain the confidentiality of student education records.

Within the Sullivan University community, only those members, individually or collectively, acting in the student's educational interests are allowed access to student educational records. These members include personnel in the Student Services Department, Accounting, Financial Planning, Admissions, Deans, Directors, Vice-Presidents, and academic personnel within the limitations of their need to know. Faculty members may also have access to records if/when a need-to-know situation arises.

At its discretion, Sullivan University may provide directory information in accordance with the provisions of the Act to include: student name, address, telephone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, the most recent previous educational agency or institution attended by the student, participation in officially recognized activities and sports, and weight and height of members of athletic teams. Students may withhold Directory information by notifying the Academic Services office in writing within two weeks after the first day of class each quarter.

### **Student Inspection of Records**

Requests for nondisclosure and authorization to withhold Directory Information must be filed annually in the Academic Services Office.

The law provides students with the right to inspect and review information contained in their educational records, to challenge the contents of their education records, to have a hearing if the outcome of the challenge is unsatisfactory, and to submit explanatory statements for inclusion in their files if the decisions of the hearing are unacceptable. The Academic Services Office at Sullivan University has been designated by the Institution to coordinate the inspection and review procedures for student education records, which include admissions, personal, academic and financial files, cooperative education and job placement records.

Students wishing to review their education records must make written requests to the Academic Services Office listing the item or items of interest. Only records covered by the Act will be made available within five days of the request. Students may have copies made of their records with certain exceptions (e.g., a copy of the academic record for which a financial “hold” exists, or a transcript of an original or source document, which exists elsewhere.) These copies would be made at the student’s expense at prevailing rates that are listed in the current catalog. Education records do not include records of instructional, administrative, and education personnel that are in the sole possession of the maker and are not accessible or revealed to any individual except a temporary substitute, records of the law enforcement unit, student health records, job employment records or alumni records. Health records, however, may be reviewed by a physician of the student’s choosing.

Students may not inspect and review the following as outlined by the Act:

- Financial information submitted by their parents;
- Confidential letters and recommendations associated with admissions, employment or job placement records, or
- Honors to which they have waived their rights of inspection and review; or education records containing information about more than one student, in which case the Institution will permit access only to that part of the record which pertains to the inquiring student.

The Institution is not required to permit students to inspect and review confidential letters and recommendations placed in their files prior to January 1, 1975, provided those letters were collected under established policies of confidentiality and were used only for the purposes for which they were collected.

### Accuracy of Records

Students who believe that their education records contain information that is inaccurate or misleading, or is otherwise in violation of their privacy or other rights, may discuss their problems informally with the University’s Registrar. If the decisions are in agreement with the student’s requests, the appropriate records will be amended. If not, the student will be notified within a reasonable period of time that the records will not be amended; they will be informed by the Registrar of their right to a formal hearing. Student requests for a formal hearing must be made in writing to the University’s C.E.O. who, within a reasonable period of time after receiving such requests, will inform students of the date, place and the time of the hearings. Students may present evidence relevant to the issues raised. The panel that hears such challenges will be appointed by the C.E.O.

Decisions of the hearing panel will be final. They will be based solely on the evidence presented at the hearing and will consist of written statements summarizing the evidence and stating the reasons for the decisions and will be delivered to all parties concerned. The educational records will be corrected or amended in accordance with the decisions of the hearing panel, if the decision is in favor of the student. If the decision is unsatisfactory to the student, the student may place with the education records, a statement commenting on the information in the records, or statements setting forth any reasons for disagreeing with the decisions of the hearings panel. The statement will be placed in the education records, maintained as part of the student’s records, and released whenever the records in question are disclosed.

Students who believe that the adjudications of their challenges were unfair or not in keeping with the provisions of the Act may request, in writing, assistance from the President of the Institution. Students should know that complaints regarding potential violations may be lodged with the Family Policy Compliance Office, US Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-5920.

Revisions and clarifications will be published as experience with the law and Institutional policy warrants.

#### Health and Safety Exemption Requirement

The school only discloses personally identifiable information from an education record to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health and safety of the student or other individuals.
