The Michael Minger Act Report for 2008

Activity Reported for Calendar Year 2007

Section 1: Campus Security Authority.

List campus security authority personnel (definition at KRS 164.948(2)):

| | |
|-------------------------------------|--------------------------------------|
| Chancellor | President |
| Executive Vice President | Vice President of Student Services |
| Vice President for Academic Affairs | Director of Housing/Residence Life |
| Student Life Coordinator | University Public Safety Staff |
| Executive Director (Lexington) | Dean of Academic Affairs (Lexington) |
| Dean of Students (Lexington) | Director of Housing (Lexington) |
| Executive Director (Ft. Knox) | Director of Education (Ft. Knox) |
| Military Police (Ft. Knox) | |

Describe the extent and nature of enforcement authority of campus security authority personnel:

Sullivan University maintains, at the Louisville and Lexington campuses, a Department of Public Safety that employs many individuals with a background and/or education in the criminal justice system. Although employees are not sworn peace officers, Sullivan University articulates that public safety personnel have the same right as any other citizen to conduct felony arrests as described in KRS 431.005 (4). This authority is granted by statute when the individual has probable cause to believe a felony has been committed.

Administrative personnel who are considered campus security authorities have the responsibility to document a crime reported to them and to respond to the matter in accordance with University policies. Additionally, the administrative personnel are responsible for informing the public safety staff of an incident to ensure the proper documentation is complete for inclusion in required crime reports.

The Sullivan University Fort Knox campus is located directly on the U.S. military base and any and all security services are provided by the U.S. military police. Crimes detected at the Fort Knox location may be reported to the Executive Director or Director of Education who will then notify the military police.

With regard to institutional policy, all above defined security authority staff members are fully empowered to enforce University policies on any University owned or controlled

property. Reports are regularly made by public safety staff members to the administration of the University when policy violations are discovered.

Describe the working relationship of campus security authority personnel with state and local police agencies:

Sullivan University has developed, overall, a very good working relationship with local, state and federal agencies. Due to the size of the cities, when calls for police service are placed, frequently, an officer or officers are dispatched that are unfamiliar with the University and its processes. However, this unfamiliarity is generally worked through.

Sullivan University

The Michael Minger Act Report for 2008

Activity Reported for Calendar Year 2007

Section 2: Description of Information Programs:

Describe programs that inform students and employees about:

(a) Campus safety and security:

New students are presented information regarding safety and security during new student orientation. In addition, printed materials including the *Student Handbook*, the *System and You United Against Substance Abuse* brochure, the *Security and Crime Awareness Annual Report* (Jeane Clery report) and brochures regarding self-defense and other safety related issues are available and distributed to students and employees of the institution.

In addition, programs and activities are occasionally offered and have, in the past, addressed issues including: *Rape Awareness, Drunk Driving, Seat Belt Usage, Substance Abuse and Self Defense.*

(b) How to report a crime:

Any and all criminal actions and institutional policy violations must be reported to the Sullivan University Public Safety Department or to one of the designated administrators described above. The individual to whom a report is made will assume responsibility for documenting and responding to the situation. Criminal actions detected after normal business hours should be reported to a University security official as soon as possible.

(c) How to prevent crimes:

Students, faculty, staff members and guests are strongly encouraged to report any and all crimes detected to a security authority staff member. Crimes can many times be prevented by people being observant of their surroundings. All students, faculty and staff members are encouraged to report suspicious persons and to report any and all acts of criminal activity. In addition, individuals are cautioned to safeguard their belongings and to copy and keep in a safe place, serial numbers for valuables brought to the campus such as laptop computers, etc.

Section 3: Statements of Policies and Procedures

- (a) Provide the institution's policy statement on making special reports to the campus community of crimes that present a safety or security threat to students or employees. KRS 164.9481 (d)*

A "Crime Alert" will be issued to the university community if/when it is determined that such notification may prevent further victimization when a pattern of crime exists. Isolated incidents will not, normally, result in the issuance of a crime alert; such notifications are used when knowledge of a pattern of crime would assist members of the university community in taking precautions to prevent victimization.

- (b) If the institution provides student housing facilities, describe the institution's procedure for disclosing the existence or nonexistence of automatic fire suppression systems in on-campus housing facilities KRS 164.9492*

A detailed letter is provided for each housing student during his or her registration process. The letter clearly states that fire suppression equipment is not present in Sullivan University Apartments. The student must also sign an acknowledgement form stating he or she has been informed that each apartment does not contain fire suppression equipment, but does contain a smoke detector.

- (c) If the institution provides student housing facilities, provide the institution's policy for giving students with disabilities priority for first-floor housing. KRS 164.9495*

Some apartments have been modified to provide accessibility features such as grab bars, roll in showers, and shower seats, accessible kitchens, and hallways for physical disabilities. Visual alarms for deaf/hard of hearing students may also be installed upon request. Students with disabilities will be given priority for first floor units based upon a first come first serve basis. It is imperative that requested accommodations are made as soon as possible so that if modifications are needed they occur in a timely manner.

- (d) If the institution provides students housing facilities, describe the institution's policy for maintaining a record of any on-campus housing assignment for students with disabilities, and the procedure for alerting safety and emergency personnel of the location of the students with disabilities. KRS 164.9495(2)*

Sullivan University's Housing and Residence life office will compile a list at the start of each quarter of students identifying disabilities or medical conditions. This list will be maintained and distributed by the Director of Housing and Residence Life. The list will provide the student's name, housing assignment, and description of disability/accommodations. The following offices will receive a copy of the aforementioned list: Department of Public Safety, Vice President of Student Services, and the Housing and Residence Life Staff. The Department of Public Safety and Housing and Residence Life will be responsible for referring to the list if an emergency in a specific building occurs, in particular medical or fire emergencies requiring personnel to be notified. The Louisville Fire Department will be notified at the start of each quarter in regards to students living within Sullivan University apartment units who may have mobility or sensory related disabilities. The students name will not be released; however the unit in which he or she is living as well as the type of disability will be disclosed.

Notes for Preceding Charts

- ¹ Section 5 of this administrative regulation provides guidance in defining crimes committed.
- ² Assistance in defining campus property may be found in 34 CFR § 668.46(a).
- ³ Number of crimes that occurred in institution residence halls, student apartment housing, or Greek sponsored housing facilities, if appropriate. These numbers are included in the on-campus property totals.
- ⁴ Non-Campus Property is any of the officially recognized/owned/leased/controlled institution properties that are located off the main campus area. Assistance in defining non-campus property may be found in 34 CFR § 668.46(a).
- ⁵ Assistance in defining public property may be found in 34 CFR § 668.46(a).
- ⁶ Category of Prejudice – These are not additional crimes. These are crimes already reported in the various crime categories that also fall into one of the reportable

categories as required by KRS 164.948(3), or other crimes in which the victim was intentionally selected because of an actual or perceived prejudice.
