

Winter 2024 Textbook Price and Inclusive Access List

The below provides information on course material requirements for the referenced term. In addition to text information, courses are also color-coded to indicate whether the text is included with tuition and the format (e-text, physical text, or course code). Inclusive Access courses requiring physical text will have their books shipped to the student from the Campus Store once the address has been verified. Address verifications forms will be sent to the student's email for responses. Students requiring physical textbooks will also have the option to pick up books in the campus stores rather than have them shipped.

Yellow indicates a textbook is included via e-text through Blackboard included in tuition.	Purple indicates a courseware code included in tuition that will be emailed to the student's email through the Campus Store.		Blue indicates a physical book included in tuition that can be picked up in the campus store or shipped to a student's verified address.	Green indicates a book, kit, or exam service that the student must purchase not included with tuition.
